

■ PAINT

- High-solid clear paint that has minimal volumetric shrinkage can give fit body paint finish appearance, especially gloss to LEXUS quality.
- TSOP (The Super Olefin Polymer) has been adopted as the material for the front and rear bumpers, and a top-coat clear paint that has minimal volumetric shrinkage can give fit appearance to LEXUS quality. The baking temperature has been lowered to minimize the thermal shrinkage of the material.
- The black solid (color number 202) has been made acid-rain resistant. As a result, outstanding acid-rain protection have been taken on all the paint colors.
