

Rear Door Window Manual Sunshade (Option)

A manual sunshade that reduces the amount of direct sunlight entering through the rear window is available as an option in order to ensure comfort for rear passengers.
(Set option with rear power seat.)

4-link Hinges on Luggage Compartment Door

Luggage compartment door hinges with a 4-link construction are used. This reduces the amount of penetration of the hinges into the trunk space and helps to prevent damage to luggage placed in the trunk. These hinges also prevent the luggage compartment door from flying open and closed, and from banging when fully opened.
