

## 2. Diagnosis Screen Display

The diagnosis menu has been changed in order to support the back guide monitor system (for Europe)/rear view monitor system (for Australia) and the bluetooth-enabled hands-free phone system. Therefore, the diagnosis menu contains the following five items.

259LS119

Check Mode	Detail
Service Check Menu	Performs a system check and gathers DTC (Diagnostic Trouble Codes) in memory, and, based on their results, shows the past and present inspection results of the connected devices.
Display Check	Shows a screen for checking a specific portion of the display.
Navigation Check	Shows a screen for checking a specific portion of the navigation ECU.
Camera Check	Shows a screen for adjusting the rear view monitor / back guide monitor function. (In the case of a model without the rear view monitor/back guide monitor function, this area is toned down or does not appear.)
BT Voice Quality Set	Shows a screen for setting the voice quality for a bluetooth-enabled hands-free phone system.

See the LEXUS LS430 Repair Manual Supplement (Pub. No. RM1049E) for detail of Diagnosis Screen Start-up procedure.
